

## SAFFA BUTTON-UP

## **Product Care**

To ensure your SAFFA Button-Up shirt maintains its quality and rich olive green color, follow these care guidelines.

Proper washing, drying, and storage will help reduce pilling and prolong the shirt's life.

## **Washing Instructions:**

#### Use a Gentle Cycle:

Machine wash the shirt on a gentle cycle with cold water to protect the fabric and color. Avoid washing with heavy or abrasive items to reduce the risk of pilling.

#### **Select the Right Detergent:**

Use a mild liquid detergent designed for colored fabrics. Avoid bleach or any harsh chemicals that can break down the fibers and cause discoloration.

#### Minimize Friction to Reduce Pilling:

Turn the shirt inside out before washing to help reduce friction. Wash with like fabrics whenever possible to further minimize abrasion.

# Drying Instructions:

#### Air Dry for Best Results:

Lay the shirt flat or hang it to dry in a shaded area, avoiding direct sunlight.

Exposure to sun can cause fading over time,
o air drying indoors or in a shaded area is recommended.

#### **Tumble Dry with Caution:**

If machine drying is necessary, use a low-heat setting. Remove the shirt promptly to prevent excessive friction, which can contribute to pilling.

### **Ironing Instructions:**

Avoid Direct Contact with Plastic Buttons:

When ironing, use a medium heat setting. Place a cloth over the shirt to protect the fabric, and avoid direct contact with the plastic buttons, as they may warp or melt under high heat.

Maintain Shape and Appearance:  Iron with gentle, downward strokes to keep the fabric smooth.  Avoid heavy pressure that can distort the material.  Additional Tips to Preserve Color and Prevent Pilling:  Limit Exposure to Sunlight: Store the shirt away from direct sunlight, which can cause the color to fade over time.  Use a Lint Roller or Fabric Shaver: Occasionally remove any small pills that may form with a fabric shaver to keep the shirt looking new.  By following these care instructions, your SAFFA Button-Up shirt will retain its color, resist pilling, and remain a staple in your wardrobe for years to come.
